DETAILED ACTION

1. Claims 1-64 are pending.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-17, drawn to a sumo video game creation method, classified in class 463, subclass 1.
 - II. Claims 18-49 and 61, drawn to identifying and manipulating video segments, classified in class 715, subclass 723.
 - III. Claims 50-54 and 62-64, drawn to generating videos, classified in class 715, subclass 719.
 - IV. Claims 55-60, drawn to remote user access of a video, classified in class 715, subclass 733.
3. Inventions I, II, III and IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as creating a sumo wrestling video game. In the instant case, invention II has separate utility such as processing, editing and sequencing video segments. In the instant case, invention III has separate utility such as generating videos from pre-existing videos. In the instant case, invention IV has separate utility such as allowing remote users to access a video via a browser. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for the Groups II, III or IV, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
